

# Interim Management & Recruitment

If you are looking for the right people to operate your stadium, to establish or restructure your stadium management then Amsterdam ArenaA Advisory can help.

We can either propose several independent candidates for the position of interim stadium manager, or we can also support you in your recruitment process when it comes to installing a (new) stadium organisation.

Currently our group of stadium managers is working for a variety of international (sport) organisations, while they have also expressed the ambition to take on the job of interim stadium manager if the opportunity occurs. We bring both parties together in order to find the most suitable interim stadium manager for each stadium project.

Our worldwide network of managers offers experience in managing the start up of organisations and getting the best out of a venue. In general they support clients for a period of 6 months up to 2 years.
